

Data Science Homework #6

Due Date: September 22

Name: _____

Credit: ☐ Full Credit ☐ Half Credit

Question: Look at the countries data shown in the code block in section 1.8 of the book. Below, are two boxes each for the prompts here. First, physically draw a plot that has a points layer and a text layer (with a small nudge upwards to avoid the points) consisting of the first five rows of the dataset with `hdi` on the x-axis and `happy` on the y-axis. Then in the second box, write the code to reproduce this (as best as you can).
