

Data Science Homework #1

Due Date: August 27

Name: _____

Credit: ☐ Full Credit ☐ Half Credit

Question: On this document, hand write a small tabular dataset showing the courses you are taking this semester. Each row should represent one course, and each column should represent one variable about the courses. Please include at least four columns, with clear variable names at the top of the table. Make sure your dataset includes at least one numeric variable and at least one string variable
